## Customer Reviews

I find it shameful to charge anything (large or small) for chronological order of author publications. Your site used to provide these dates on summary pages by book; plainly in the open. To me it feels like has chosen to adopt the poor practices of the airlines when it charges for items that compliment the buying process; assisting the customer in making the correct or desired purchase. Should a customer make a mistake when ordering on-line has make it difficult for the customer to cancel the purchase -- resulting in the customer eating a bogus charge and laughing all the way to the bank. Am I unhappy? No, I have options other than to purchase on-line books. Like , but feel it has forgotten how to serve the customer. With all the hoopla in the press about books and raking authors, how about a little customer advocacy best practices to make the experience better? Could you maybe refresh some big thinkers on your team with customer focused people?

Isn't this what Wikipedia is useful for. Instead of buying a book to tell you what order the W.E.B. Griffin books go in google the author. <http://www.webgriffin.com/books.html>. I make the disclaimer that I have not bought the book nor do I plan to.

Very helpful in keeping straight what I have read & what not. I am a W.E.B. Griffin fan but he has written so much it is hard to remember which ones I have read & which ones not. With this list you can check off the ones read & keep track without relying on memory or getting a real book & checking of the list in the front of the book. These lists are very helpful. RAG

Absolutely pathetic! I guarantee that all the 5-star reviews are fake. You can get the same information from Wikipedia. Why does allow trash like this author to publish lists like this? It's insulting to the reader and incredibly offensive to W.E.B. Griffin. This book should be pulled from !

This series and all W.E.B Griffins books are great can't get enough of them. From the Lieutenants to Generals , The marine corps series and the Police series and to these I just mentioned above. If you like military historical novels and some really good dialog these are the books for you

Useless book - difficult to work with. I have deleted it from my Kindle and really would like a refund.

WEB Griffin has written a lot of books in different series with different characters that need to be read in order. It is nice to have one place that lists them all and that will be updated when new books come out. I think this is the place. One should be aware, that it is just a list of books. At the end of a list, is another list that tells you other author's series lists that are available from (Kindle) for just \$.99 each. They also state that you can request that a list be created, if you have a favorite author who is not listed.

Nice to have with a "little" info, but most of the info is in each new book. No mention how the Philt series manages to span two generations with no one aging.
