These maps are quite detailed (more than a standard map atlas in my opinion, but probably a little less than a huge fold out paper map). They offer most all the roads an out of state traveler would ever need to know about. I use a GPS, but my wife likes to follow along on the map and the map gives us a much better overview than the GPS can. These maps fold so easily. And if you spill something on it, no problem. Just wipe it off.

Definitely well laminated and durable. The only thing I don't like is where the folds are they have the map cut with about 1/8 to 1/4 inch gap on each of the six blocks. Works good for quick reference on road trips - definitely not for detailed local driving.

Keep this handy map by my side in my auto while navigating with GPS. Experiencing many collisions and road delays. This map gives me quick easy to read alternate routes.

Great to keep in the car. No folding and refolding issues. I have these for several states. Well worth the money.

So easy to refer to while driving. Made my trip thru South Carolina much less stressful on the road. Love how easy they fold and I can store them in the car for future use.

Traveling for a living, a GPS system is great, but one in a while, a map really comes in handy. And when it does, a laminated map is the only way to go!

I love these maps. In a day where everyone uses their smart phones, I just like seeing the big picture at a scale where my vision can catch the small print. Highly recommend.

Excellent quality! I bought these for my car. Digital maps are not as effective when driving in unfamiliar terrain. Regular maps are no longer sold at gas stations. Not ever getting lost again. ...
