Customer Reviews

There isn't a whole of information on this page, and I thought that perhaps another review would be helpful. I just started learning Hangul a week or so ago, and realized (much to my horror) that I cannot draw a straight line to save my life, nor can I accurately judge scale when copying the characters. This notebook is one of the stand-alone products available on (as of the time of this writing) to help improve your ability to accurately and neatly write Hangul - and it's beautiful. The notebook itself is good quality - nice paper, simple but well-made cover - and contains plenty of room for you to practice. I highly recommend this product - don't be discouraged simply because it doesn't have many reviews!

This book can be used to practice Hangul or other writing such as Kanji or Kana, because its just

spaced out blocks. However the design and quality of the notebook gives a "deeper" feeling for Hangul.

This notebook is beautiful! Yes, I know, it's just a notebook, but the cover is made of heavy duty cardboard and has a waxy/silky finish to it. It feels sturdy and well put together. I can't wait to start using it!
