Dreams And Stones

Synopsis

Dreams and Stones is a small masterpiece, one of the most extraordinary works of literature to come out of Central and Eastern Europe since the fall of communism. In sculpted, poetic prose reminiscent of Bruno Schulz, it tells the story of the emergence of a great city. In Tulliâ™s hands myth, metaphor, history, and narrative are combined to magical effect. Dreams and Stones is about the growth of a city, and also about all cities; at the same time it is not about cities at all, but about how worlds are created, trans-formed, and lost through words alone. A stunning debut by one of Europeâ™s finest new writers.

Book Information

Hardcover: 110 pages

Publisher: Archipelago; 1st edition (March 15, 2004)

Customer Reviews

Architecture, dreams, life, lines and asphalt is where Magdalena Tulli takes the readers of Dreams and Stones. Along for the ride of a city, where the stones of reality will fall, but only the dreams survive. Life will always be imperfect, but dreams they can be what you make of them. Magdalena Tulli could take the most hideously boring subject and write beautiful sentences. I adore her writing, it is deep, intense and ambiguous. She dares to go places that her readers may not be able to follow, yet she fear not as she takes them there. Dreams and Stones is a balance between the mystical dream world and the harsh reality of life. Life is too real, dreams are too far gone. I could drool over this book, there are certain key sentences which I will share, that might as well be screaming "I CAN'T BELIEVE NO ONE HAS WRITTEN ME YET!!!!", but she does, and does it with ease and a tenderness that willingly ushers the reader into a new place. In saying all that, I can

come clean and say that a lot of her writing was very deep for me, or just too hard for me to grasp. I love strange and weird and unsettling, however I am not fully able to comprehend what was hard for me about this book. Tulli's writing is incredible, yet many times I just had no idea where she had taken me and what she was writing about. I felt as though it were poetry in form of prose, which would make sense because so much of poetry is how it speaks to the individual, therefore making poetry on the hard-to-understand side sometimes. Throughout the book I was rocked out of my seat with her writing, others I was only holding on by a molecule. It could be that it was too philosophical for me, I am not sure.
